

## **FOR IMMEDIATE RELEASE**

Thursday April 5, 2018

### **McQueen, Independent candidate, AR-04, endorsed by Citizens for American Renewal [CFAR]**

ARKANSAS--Lee McQueen remains the longest-standing challenger to incumbent Republican Bruce Westerman for Arkansas's 4th District House seat since her early entry into the race on 09/28/2017.

On 03/27/2018, McQueen signed a Candidate Contract with Citizens for American Renewal as a commitment to District 4 that she plans to sponsor, or co-sponsor, and vote for specific progressive legislation.

“The CFAR is made available to “people’s candidates” — genuine populist-progressives — as a decisive mechanism for defeating centrist-neoliberal candidates, the vast majority of major party politicians, who serve only the rich and powerful and are skills for the corporate state. Central to the CFAR strategy are issues that are supported by 62%-80% of the voting public. Among these are raising the minimum wage, eliminating Citizens United, supporting clean air and water, protecting Social Security and Medicare, instituting infrastructure repair, inaugurating single-payer health care, ending perpetual war and reining in militarism, and so on.”

McQueen's priority is to the constituents of District 4 and not to PAC bundlers, corporate donors, industry lobbyists, party operatives, party leaders, etc.

Per McQueen, "Thank you, CFAR, for engaging in the tireless task of holding our political system to high standards with high expectations. I continue to be honored whenever the Future Arkansas platform, my candidacy, and the progressive issues that a majority of North Americans support receives recognition."
