

**McQueen, Independent candidate, AR-04, asks for help with collecting remaining signatures for ballot access**

For Immediate Release

April 18, 2018

ARKANSAS--Lee McQueen is still working hard to gather the last 1000 signatures for ballot access, but she needs the help of District 4--the people who want common sense drug laws, foreign policy, single payer healthcare, \$15 minimum wage, free college tuition, etc.

Most people Lee speaks with door-to-door favor these policies regardless of political party. What Lee finds is a weariness of political circuses, trash talk, and game-playing.

The people of District 4 who want the best lives and futures for their families and their communities can help to make this happen because there's still time!

If you care about living wage jobs; affordable college, education, healthcare; protecting our military servicemen and women; campaign finance reform, we need your help to put these issues on the federal ballot!

Please help collect 10 or 20 or 30 or 50 or 75 signatures to send to the sole Independent and progressive campaign for Arkansas's 4th District House seat! Friends, family, neighbors, co-workers, people you meet at festivals and events... many hands make lighter work.

Instructions, campaign handbills, and blank petitions at the link. Thank you!
